

iBEAM CONSTRUCTION CAMERAS

Onboard Video Recording Upgrade for iBEAM Construction Cameras

iBEAM offers an optional 256 GB *Onboard Video Recording* upgrade for our construction cameras to capture 24/7 activity on your job site in addition to the iBEAM hosting services.

The *iBEAM Onboard Video Recording* upgrade provides:

- High quality recorded video, even in low light conditions
- Recording loop of approximately 90 days at 1080p
- Automatic day/night mode (B&W) in low light conditions
- Activation of integrated LED IR lights when camera switches to night mode
- Records video 24 hours a day
- Download and save video clips when you need it

For more information, or to check to see if your camera is compatible with the *Onboard Video Recording* upgrade, give our team of camera specialists a call: **800.403.0688**

How it Works:

Your iBEAM camera will include a **256 GB Onboard Video Recording** upgrade programmed to record *1080p video at 1 frame per second, 24 hours a day*. Upon camera installation, a link and login credentials will be sent via email to access the video recordings.

This is a separate feature from iBEAM's hosting and support services. It is entirely the customer's responsibility to manage and retrieve stored video and verify video is being stored properly. iBEAM assumes no liability for any accident, incident, loss, or other undesirable outcome resulting from use of this feature.

Cellular overages may occur if mis-used.
